

2019 MICNP Conference - Friday PM Workshops

Date	Time	Presentation Type	CE / Pharm	Presentation Title	Speaker Name	Description
Friday, March 22	1:45 pm - 3:45 pm	2 HR PM Workshop	2 / 1.8	COPD: The Ins and Outs of Helping Your Patients Breathe Easier	Trisha Wells, PharmD	Patients with COPD face progressive loss of pulmonary function accompanied by significant symptom burden and risk for severe exacerbations. Clinicians caring for these patients face challenges due to unawareness of contemporary treatment recommendations, high cost of inhaler products, medication nonadherence among patients, and limitations in scientific data supporting their relative effectiveness or safety. This session will promote rational treatment of stable COPD by reviewing 2018 GOLD guidelines and applying them to case scenarios.
Friday, March 22	1:45 pm - 3:45 pm	2 HR PM Workshop	2 / 0	Ultrasound is Coming to Your Practice Soon: Are You Ready?	Mary Anne McCoy PhD, ACNS, ACNP-BC	Ultrasound technology is becoming mainstream with its use beyond ICU, ED or Obstetrics. This workshop will give you a basic understanding of how ultrasound works, techniques on how you can enhance your differential diagnosis with ultrasound skills. In addition, how billing and coding with ultrasound may change your practice now and in the future with telehealth.
Friday, March 22	1:45 pm - 3:45 pm	2 HR PM Workshop	2 / 1	Preventing HIV in the Primary Care Setting: The Best Defense is a Good Offense	Michelle R. Thomas, FNP-BC	The absence of an effective vaccine against HIV creates a need for alternative, high-impact, effective HIV prevention methods to reduce the incidence of HIV infection. Oral pre exposure prophylaxis (PrEP) has been proven to be a safe and effective means of preventing HIV. Both the FDA and CDC have issued guidelines to promote the safe and effective use of PrEP for HIV prevention in the primary care setting. This session will help you implement HIV prevention strategies in the primary care setting.
